ENGLISH • Thank you for choosing this premium product from SW-MOTECH. Visit our online shop for more information (e.g. model assignments). Required documents (e.g. national type approval) are available there for you to download.

Please read and understand all the instructions, safety information and warnings in these mounting instructions before mounting and using the product in order to avoid injury and damage. Keep these mounting instructions for reference.

This product was developed for vehicles in factory condition. Compatibility with original accessories or accessories from other manufacturers cannot be guaranteed.

These mounting instructions have been prepared to the best of our current knowledge. No legal claims relating to accuracy can be made. Errors and omissions excepted. We reserve the right to make technical and design changes. The copyright is held by SW-MOTECH.

SAFETY WARNING SYMBOL

 This warning symbol is used in these mounting instructions to warn of deadly dangers, injuries or other hazards. The words **DANGER**, **WARNING** or **CAUTION** are used as part of this warning symbol to convey important safety messages and information relating to the installation and use of this product. These words, together with the safety warning symbol, mean:

 **DANGER:** Indicates a hazardous situation which, if not avoided, will result in death or serious injury!

 **WARNING:** Indicates a hazardous situation which, if not avoided, may result in death or serious injury!

 **CAUTION:** Indicates a hazardous situation which, if not avoided, may result in minor or moderate injury!

 **NOTE:** Important information, but not relating to a risk of death or injury (property damage only)!

GENERAL INFORMATION

 **WARNING:** Assembly and/or maintenance of this product requires advanced technical skill, appropriate tools, and a good understanding of tool usage and torque specifications. For your own safety, SW-MOTECH recommends having the assembly and/or maintenance carried out by a qualified and certified motorcycle workshop.

 **WARNING:** If you do choose to assemble this product yourself, carefully and fully read the mounting instructions before assembly and use, and follow all instructions to avoid serious injury or death. Also observe all relevant information in the vehicle manual when mounting or using the product. IF YOU DO NOT UNDERSTAND ANY PART OF THESE MOUNTING INSTRUCTIONS OR NEED AN EXPLANATION AS TO A SPECIFIC INSTRUCTION, DO NOT ATTEMPT TO INSTALL THIS PRODUCT WITHOUT CONSULTING SW-MOTECH FOR ASSISTANCE!

PREPARATION: Read the mounting instructions carefully and make sure that all parts on the parts list are available.

 **CAUTION:** Ensure that your vehicle is standing securely. Switch off the engine and remove the ignition key. Allow the engine/exhaust to cool down if necessary. Disconnect the battery when working on the electrical system. Only use proper tools and always wear safety goggles and gloves during assembly and maintenance. Have a second person help you with assembly and maintenance.

ASSEMBLY: All parts and connections removed from the vehicle must be reinstalled according to the vehicle manufacturer's specifications or replaced with parts and hardware supplied by SW-MOTECH.

 **WARNING:** Secure all threads with a medium-strength liquid threadlocker, unless otherwise specified.

 **DANGER:** Tightening torques not defined by SW-MOTECH must be obtained from the vehicle manufacturer or a certified motorbike workshop.

FUNCTIONAL CHECK: After mounting the product, ensure that no moving parts are obstructed and that the function of the vehicle is not impeded. Cables and hoses must not rub against each other and/or be hindered in any way.

 **WARNING:** Carry out a comprehensive functionality check before you start to drive. Check the tightening torque of all connections and the tight fit of the product after the first 50 km and then at regular intervals. Mounted accessories can change the handling and stability of the vehicle.

5

WARNING: Always wear eye and hand protection!

▲ WARNING: Always use suitable tools.

▲ NOTE: The following assembly steps indicate how to install the left crash bar (4).

Install the right crash bar (5) in the same way.

▲ WARNING: Do not start installing the right crash bar until you have completed installing the left crash bar!

Remove the parts shown.

Screw the fully threaded screws [2] into the fork bridge.
Tighten the fully threaded screws [2] according to the manufacturer's instructions.
Screw the mounting bracket [1] with the fully threaded screws [2].
Tighten the nuts as specified.

Remove the bushing shown.
Loosen the nut and turn the original mounting bracket away from you.

▲ NOTE: Cover the fender to protect it from possible scratches!

Place one half of the crash bar (4) at the top attachment point between the bracket and the vehicle.
Please note that spacers of different heights are fitted at the top attachment points on either side.

Right: Spacer (7); height 21 mm

Left: Spacer (6); height 24 mm

▲ **NOTE:** Start by installing the right crash bar (5).

Screw both halves of the crash bar (4) and (5) to the top screw attachment point on the vehicle using the original screws. Then screw the original mounting brackets (Orig.) onto the vehicle using the original parts (Orig.)

▲ **WARNING:** Use liquid thread locker ((Orig.) screws only)!

Do not tighten the original screws (Orig.) yet.

Tighten the original nut (Orig.) according to the manufacturer's instructions.

Screw both halves of the crash bar (4) and (5) to the mounting bracket (1).

Now screw the two crash bar halves (4) and (5) together.

Once all components are in place, tighten the screws ([2], [8] and [11]) as specified in the mounting instructions.
Tighten the screws (Orig.) according to the manufacturer's instructions.

Install the original plastic caps (Orig.).

PRODUCT-SPECIFIC NOTES

⚠ WARNING: This product may inhibit cornering and ground clearance in cases of extreme inclination!

⚠ NOTE: Observe the country-specific regulations for the registration/operation of your vehicle and any applicable TÜV regulations. Have any parts requiring registration entered into your vehicle documents by your inspection centre after they have been installed.
